Drain Vision

Feb 04

I have been dealing with NMP for over 12 months now, and our business relationship has gained in both strength and trust. It was by chance that a mutual business associate introduced me to NMP and I am definitely glad he did. NMP is providing me with an epoxy resin specifically developed for Drain Vision's trenchless pipe repair system. The level of professionalism backed up by cutting edge technological advances would be difficult for anyone else to match. A willingness to listen to customer's requirements and a fierce determination to deliver a product that will perform is typical of the service I have experienced with NMP.

The staff is enthusiastic about their work and is always very approachable. The protective coatings and adhesives industry is overflowing with companies that claim to be able to perform many amazing things, rest assured that if NMP claim to be able to do it, then the proof is in the product.

I can think of no reason why Drain Vision will not be dealing with NMP in the next phases of our development. It is important as a customer to be made to feel as a priority. At NMP, each question is given an equally quantified answer. There is no hurdle too big or small for NMP as they approach things in their uniquely systematic ways.

Terry Gillam

Director and Licensed Plumber

Safety Floor Management

Jan 04

I have worked with National Maintenance Products since its inception and have no hesitations in recommending their company to anybody who wishes to use them. My company does a lot of epoxy flooring and coating and we require a service and a product we can trust.

As a supplier of products they have been second to none. On time deliveries, back up service for any problems, as well as problem solving to assist you.

Their products have improved over the years to now be one of the leading products on the market. Very easy to apply and clean up. A good working time limit to work with. Also the products are very easy to mix.

I have found NMP very easy to deal with and especially their friendly approach that makes you feel like you want to work with this company.

They also put out a great newsletter each month that keeps you up to date with all the new things that are happening.

If you require any further assistance please do not hesitate to contact me.
